SAFe Scrum Master (2 Days)

Overview

In this two-day course, attendees will gain an understanding of the role of a Scrum Master in a SAFe enterprise. This SAFe Scrum Master course explores the role of the Scrum Master in the context of the entire enterprise, and prepares attendees to successfully plan and execute the Program Increment (PI), the primary enabler of alignment throughout all levels of a SAFe organization. This includes learning the key components of Agile at scale development, how Scrum is facilitated throughout the enterprise, and how to execute Iteration Planning.

Attendees will also discover how to build high performing Agile teams by becoming a servant leader and coach, and how to coach those teams to deliver the maximum business value at scale.   SAFe Scrum Master (SSM) certification signifies that people are prepared to perform the role of Scrum Master in a SAFe environment, increasing their value to teams and organizations that are implementing SAFe.

Audience

The following individuals will benefit from this course:
- New Scrum Masters who need to perform the role
- Existing Scrum Masters who would like to understand their role in the context of a SAFe enterprise
- Team Leads who want to understand the Scrum Master role
- SAFe Release Train Engineers who want to coach Scrum Masters on their role

Learning Goals
